Have in many cases defied the skill, heretofore, of the
best medical practitioners in the world, and many cases
have been abandoned as incurable.

Dr. J. WILLIAMS, Chemist and Pharmacentist, after
studying closely the practice of Drs. Abernethy and J
Johnson, England, and observing the nature of the &
sease in all its stages, during a solonra la the southers,
and western portion of the United States, where it prevails to a greater extent than elsewhere, procured from
Sonth America, certain roots and herbs, from which he
prepared an 'Elixir;' which, after eighteen years' use in
private practice, has proved itself more efficacious in the
ourse of Dyspepala, than any medicine that has ever been
prepared in any age or any clime, for the same purpose.
Having submitted it, with an explanation of its compoments, to a number of Physicians of Philadelphia. ameng
whom were the late Drs. Joseph Hartahorne and J. C.
Morton, it has received their entire approval, and many
of the Medical Faculty are not only prescribing it for
their patients, but are using it themselves personally, and
in their families. As a tonic, it is nacqualled, and its propcritics are of so invigorating a nature, that it is given with
perfect safety and success to the most tender infants.

The "Elixir" is very gradual, but certain is its action
upon the organs of digastion, the increased secretions of
the liver, pancreas and mincous memorane of the stomach, and requires that only one doze be taken in twentyfour hours; for confirmed Dyspepala can only be oured
by gradually restoring the organs of digastics to a
healthy state. The great success met with in curing the
most aggravated cases of Dyspepala, accompanied cometimes with a high grade of hypochrondrasis has established the most unbounded confidence in the ourantys
properties of this "Elixir." in corroboration of which

The list of uames could be extended to almost any length, but the foregoing is deemed sufficient.

Testimony of H. N. Sperry, coho was abandoned spinous to 1854, I suffered so much from Dyspepsia, that I became completely prostrated, both in mind and body, and at length became so weakened I could not attend to my business, and was sinking into a decline, and it was believed I never could recover; the best medical ald was procured for me, and every means resorted to without any relief, till I was advised to me your "Elixir," and from the time I began taking it I gradually improved, till was completely restored to health. The dreadful suffering I indured from Dyspepsia I cannot describe; but I am condens that without the use of your "Elixir," I should be in my grave. I assert that I solemnly believe your "Elixir" has saved me from an early death. I could man own in the enjoyment of excellent health.

H. N. Sperry for several years, and take pleasure in stating that his assertion can be perfectly relied on, and that we ourselves know that he has been wonderfully restored to health from the brink of the grave; and we believe, as he asserts, solely by the use of Dr. Williams' "Elixir."

PRIDAY, SEPTEMBER 17, 1858. The chill weather of last evening doubtless derred many from ettending the sxhihition at the Reading Matter on every page. nstitute. Nevertheless, there was a merry and The Memphis Branch of the Louisville and Nash-ville Railroad. apparently well pleased crowd. Indeed, those resent could not have been but delighted with Gov. So I cannot, in justice to the company, do less than pronounce your statement gratuitous, unauthorzed, and without foundation." Now this is de cidedly cool, and eminently ebseacteristic of the Governor. Let us dissect this denial, and see now much reliance there is to be placed in It. Does he pretend that the road can be finished without a sals of the mortgage bends? Will he tell us whether or not he has yet sold one single mortgage bond for cash! Is he not now paying his esimates from money reised from bonds hypotheoated to one of our hanks? Will he tell us whether hs did not sell first mortgage bonds on the Lehanon branch road, bearing seven per cent interest, and having only a little upwords of four years to run, at seventy-five cents on the dollar. If he will deny this, we will see if we can't prove it-Then, if he sold these bonds having a little upwards of four years only to run, what right have we to hops he will sell the first mortgage bonds ou the main stem, having a much longer time to run, for a better price? Will the Governor dany for the future, and we think with Milton, that that, for the past twelvo months, he has been williug to sell 6 per cent mortgage bonds on the malu stem at seventy-five cents on the dollar? Has he not been writing and endeavoring to effect a negotiation of these bonds, and if so, up to this date bas he received the slightest sncouragement that a sale can he made? And, if these mortgage bonds

The unskillful manner in which the Governor has handled the city bonds has oost Louisville, in actual discount and loss of credit, a fabulous summore than we will undertake to compute by figures. Look at then and now. Shortly before the ad ent of the present management of that enterorise into power, our cotemporary of the Demo. erat, then being a member of the board of trusees of common schools was appointed agent to asgetiate a sale of some of our city houds, issued for the benefit of our common schols, and he effected a sale of them at par or nearly par, and after his return, we have been told, he had to procure certificates and affidavits to prove thet he did not get more than par.

Even the water company said their boads et saventy-seven and a half cents, although they had to contend lu a market where the Louisville and Nashville issue, owing to the manner in which they had been peddled and bartered off, were selling at from sixty to sixty-five cents on the dollar. These are stubborn facts and we invoke our fellow sitizens to ponder upsn them. When a baked sod.

company sells the best of securities at a price that will pay the purchaser such an enormous and ruinous per cent. per annum, is it to be won dered at that confidence is destroyed, and the stock of the road is sold at from ten to twenty per cent. on the dollar by some ef our shrewdest en and largest property holders? It is these facts that we complain of. We con-

Gov. Helm, alluding to our remarks on the ordlance authorising a subscription of \$300,060 to ille railroad, uses this language: "The Courier says this is not the time, nor have we proceeded by the right mode; but he does not favor us with his time rmanner." We will favor the Governor now with our time and manner. When the credit of Lonisville is redeemed, and her securities occupy that osition to which their intrinsio worth justly entitles them-when the Louisville and Nashville railroad and the water works are sompleted, and our citizens are relieved from the oppressive taxes hat have been grinding them to the dust for the past few years, then, and not till then, will be the

Onr condition and oredit are not so desperate that we should thus be made the viotim of shavers and usurers. This is our answer. Davers are. We publish this morning the resolutions adopted by the Democracy of Trimble lest Monday. They will do to read and reflect upon. Some of the best Democrats in the world dwall in Trimble, and their names may be found among those who attended this meeting. They are true national Democrets, with decided Southern proslivities, and that is the kind we like. They gave Revill 522 last Aagust, and would have given him many more if it had been necessary. Let everybody reed what the Demosracy of Trimble have said, and done, and act forth in these resolutions.

One thing worthy of note, is that they don't like the changing of the dey upon which the State conventions have heretofore been held. Let oth-Democratic meetings be held in every county in the State, and let the Democracy everywhere express their opinion on the subject, as they have done in Trimble. We confess ourselves to be parconally in favor of the 8th of January, but do not like to interfere with the arrangements of the Central Committee. We doubt not that the 8th of January will suit the fermers much better than the 15th of March. Let there be an expression of opinion at an early day, however, and if the change! that has been made is not agreeable, let us go

We were delighted yesterdey, upon visiting the office of the U.S. Topographical Engineers to see that our friend George F. Fuller, in the midst of the arduous and practical duties apper-taining to thet department of the service, has found time to cultivate his fine taste for the arts. The latest production of his skillful pencil is a eautiful and poetical rendering of a commonplace scene—a steamer wooding upon the Missis sippi. Nothing could be more perfect than the delineation of the graceful Empress, nor do we recollect ever seeing a more happy effect of light and shadow upon convass than in this night scene. The moonbeams glistening upon the rippling waters—the dusky forest—the hands "wooding up"—the approaching boat with its great, red central eye of fire—the passing fletboat—all bese combine to render the picture a work of more than ordinary merit. Why will not Coptain Fuller place the production of his easel upo exhibition? Alt would especially grace the hall of the Mechenics' Institute,

attracted no inconsiderable degree of interest, and slicited many encomiums from lips unused to uttering words of praise in behalf of creatures so light and zerial. There wers specimens of crotch et work, elegantly conceived end most artistically wrought, by two young ladies, Miss Hannah Hy men and Miss Huldah Hyman, aged twelve and fifteen years. We wondered more at the patience and industry that must charecterise these young girls, than at their work, excellent as It is. At an age when fun and frolio ere the ruling passions of their sex, they have ohosen to devote themselves to the cultivation of the domestic graces, and with an assiduity worthy of all praise, have perfected themselves in one of the most pleasant female accomplishments. Two splendidly worked and embroldered chairs, the fruits of Mias Alice T. Bordeu's skill and industry, were also suggestive of her quick eye, and ready hand, and pleasing fancy. She, too, is hut a girl-just in her teens. We the more cheerfully commend these youthful examples, since they promise well

"Nothing lovier can be found In weman, than to study household good." A case of paper flowers and materials for the manufacture of those beautiful ornaments, are ex hibited by Mrs. E. W. The flowers bear such a striking semblance to the swest children of the garden, that were it not for the absence of the delicate and gracious odors that render nature's blooms and blossoms the more lovely, we might readily mistake these srtificial product for clipolngs from the most exotic plants.

Not far from these light and fragile articles may e found the more oumbrous and substantial implements of agricultural science. There are the various plows manufactured by B. F. Avery, of this city, of his own peculiar patent, and adapted to all kinds of soil and every species of crop-plows with shears keen and glittering as Damascene hlades, made of the stoutest timber, and so arrunged as to be of light draft-easy for both driver and teams. Mr. Avery's factory, on lower Mala street, is an immense institution, at which a large number of hands are employed, and whole forests of timber annually used. The demand for these plows comes chiefly from the South, where they are universally popular with planters. In this State they have also a wide range of useturning up blue grass, pennyroyal, and Esand

A curious combination of articles to be seen in a exhibition hall, the reader may observe. Yet they are there-the results of Mr. Auton Kablert's labors, whose establishment is on Sixth street between Market and Jefferson. Mr. K. ls an excellent artizan, as these castings attest. The repressutations of our Savior on the cross display no little artistic skill, while they are highly finished. Asornaments for Catholic oburches, we should think they would he very desirable. He also exhibits several styles of paper weights, combining beauty with utility, being made of brass. The foundry of Mr. K. is one of the small workshops of our ciry, where so much is annually produced but which never figures in the total summing up of the trade of the place. And here we have practical demonstration of the value of the Mechanies' Institute. Had it not been for this public display of Mr. K.'s skill in a peculier branch of mechanics, but very few persons would have heer proper time to talk of embarking in new enteraware of bls existence, or of the prosecution of that department of art in Louisville.

ABOUT PICTURES AND ARTISTS. Our brief notice yesterday of the display of photographs, by Harris, has eaused quite a commotion. His splendid gallery of pietures was a magnet last night to attract all classes. Groups were standing about discassing the portraits, ead there was a diversity of opinion, as there always is when artists speak of the works of their own fraternity. It is singular that people whe minister so much to the gratification of the complete of the speak of the works of the day of the day of the speak of the works of their own fraternity. The most famous artists have been a quarrelsome, morbidly sensitive, morese, and unpleasant set of genius-inspired prestures, and their followers in the lower walks of art must needs imitate the dis majores in their foibles and follies. We certainly shall not interfere in the discussion that is likely to erise about photographs, ambretypes, shalk lines, and all that sort of thing. We benestly commend Mr. Harria' productions, as we intend doing those of every other oitizen and operative whose arts are worthy.

As regards the artistic merit displayed in the pictures, we have nothing to say, but when a man calling himself a photographer, attempts to palm such pictures as specimens of his own work, for the purpose of obtaining an advantage over others, who confine themselves to the legitimate for the purpose of obtaining others, who confine themselves to the legitimate results of the photographic art, then we feel that justice to ourselves requires that the public be undeceived. Their photographs can be produced of equal dimensiona to those refered to, we have no doubt, and as such would be entitled to consideration, as an evidence of the skill end enterprise of the photographer, but such results would involve too great an outlay of time, trouble and expense to ever repay him.

Mr. Murdoch 'did full justice to the part of Benedick. The wit and humor with which that character abounds, was pleasantly given .-Mrs Baker's Beatrice was piquant, splrited and graceful. Miss Irene Walker as Hero, manifested decided improvement. She has a handsom face, and if we are not mistaken, possesses decided dramatic talent. Mr. Kecble made his debut as Claudio. The part is not calculated to display his power, and we, therefore, reserve our opinion for a more suitable time. We can not say we liked the Dogberry of Mr. Lorton .-Wherever heartiness or bluffness of action, or intensity of feeling is required, Mr. Lorton has no superior. His excellence is such that "stars" even should be careful, or he wins the laurels they would have to deck their brow. Yet Dogberry i one of the few parts not adapted to Mr. Lorton's talent. Mr. Baker plays it much better. Some other parts were good, but we have not space to

To-night is Mr. Murdoch's benefit, and if the weather is fair, the theater will be crowded. The plays are Richelieu, and the 4th act of the School for Scandal.

We need scarcely mention again to our readers, particularly the ladies, that Messrs. S. G. Henry & Co's large sale of New York City manufacture furniture, comes off this morning, (Friday, at 10 o'clock, at storeroom, 500 Main street, ad joining auction rooms. Buyers will find many very desirable articles of furniture, all of which are guaranteed as advertised. It is the particular request of Mr. Henry that this beautiful and serviceable lot of furniture will be examined by purchasers before the sale, as he flatters himsel it needs only to be seen to be appreciated.

FIRE. - About 11 o'clock, yesterday, morning fire originated in a row of frame buildings on Franklin street, near the corner of Wenzel. All of them were destroyed. The back sheds and men in his employ. We understand that the fire canght from sparks of the furnace. The steam fire engines were promptly on the ground, but the Franklin hand machine was foremost.

We call the special attention of our readers to Mr. Spencer's sale of furniture, pianos oil paintings, and house keeping articles, this (Fri day) morning, at his auction rooms, No. 520, Main street. In the lot will be found superior oil paintings, plash seat and rosewood furniture, with many other articles well suited to the wants of house keepers. A peep into his store will satisfy buyers that their interest will prompt them to at tend his sale to-day. His goods are all on commisston, and will be sold regardless of value.

CHARGE OF MANSLAUGHTER .- By referring to our police report in another column it will be seen that Bernard Nadal has been held to bail in the sum of \$1,500, to anwer the charge of manslaughter. He was arraigned for killing Captain Eli Vansickles, who came to his death from a for Chicago (Sunday excepted); one train Sunday wound on the head, inflicted with a piece of oak wood. The elder Nadal was discharged.

New Commission House Messrs, J. A. Penton and N. S. Glore have associated themselve in business and opened a new commission house and produce store, on Fourth street. We know both of these gentlemen. From Washington.

Washington, Sept. 15.—The President has ordered the further postponement of the Kansas land sales till July next. The reason for this is

stated to be in the financial pressure of the country, and consequent inability of the settlers to prove and pay for the preemption by the time fixed by the proclamation ordering the sales in November. The lands comprise three millions acres. The President has ordered the new land of the about to be established in Now Mexico. e, about to be established in New Mexico, to sted in Santa Fe. real Harney to-day received his final orders, leaving for the new military district of

Town Topics—Beauty, when unadorsed is adorned the most," the poetle proverb tells us. Despite the saying, who fooks upon a lovely woman handsomely attired without a consclousnessof the effect produced by the arrangement, the color, the quality, the very texture of her costume; and exactly so is it with a gentleman; graceful, well formed said comely, he may be, but after all "the Tailor makes the man," and just as the "artist's" taste arrays high he becomes vulgar or attractive. Nobody knows this fact better than J. M. ARMSTRONG, whose association with the Ciothing trade in this city for so many years has made him an oracle on such subjects. He enjoys a reputation second practe on such subjects. SMITH'S TONIC SIRUP. THE attention of dealers in Drugs and Medicines, and persons a filleted with Chilis and Fever, or Ague and Fever, is respectfully invited to this celebrated medicine, which has justly obtained a high reputation throughout the country, and for many years has maintained its superiority over all other remedices, as a safe, certain, speedy, and Fever, or Ague and Fever.

The public may rely upon the fact that it is entirely vegetable in its composition, and made from the best, purest, carefully selected reliable articles, and is atways prepared by the proprietor imperson, and, therefore, he can warrant it uniform in quality. ant it uniform in quanty.

Its Diaphoretic and Alterative properties, combined with its great Tonic qualities, render it eminently juining, and other remedies, as a general and popular related in all cases where a Tonia is required an be administered.

It does not produce Headache, Giddiness, Buzzley of the Ears, er any of the unpleasant affects which so frequently attend the use of Quinina, or other remedies, but may be given in all cases, and under all circumstances whatever, to Females, Infants, and all persons who are debilitated, or have the most delicate constitutions, without the least apprehension of any injurious or even unpleasant effects.

Practitioners of medicine who have not prescribed it, and affinited persons who have not used it, are respectfully invited to give it but a fair trial, and they will then be convinced of its great superiority ovar other remedies and that it possesses all the virtues claimed for it.

It is not only perfectly safe and innocent in its effect, int in no case whatever has it been known to fall in our had carried out.

Chilis and Fever, or Ague and Fever, whether of short or long standing, if the directions were strictly followed and carried out.

This medicine has become a staple remedy, and for years has been extensively used throughout the Sistes of Kentucky, Tennessee, Alabama, Mississippi, Louisiana, Texas, Arkanas, Missouri, Illinois, Iowa, Wiaconsin, Ohio, Indiana, Nehraska, Pennsylvania, Michigan, and California, and more lately in Kanas Territory, and has permanently cured near 2,000,000 of cases in all its varied forms and conditions, many of which were from one to three years' standina, and had resisted all the usual remedies known in the country, and in no case did it fall to make a perfect and permanent cure where the directions were properly followed. Such is its invariable success that it has gained the confidence, favor, and patronage of a large number of respectable practitioners of meliteins throughout the country, who prescribe and administer it in preference to Quinine and other remedies.

Persons hiving in districts of country subject to Chilis and Fever, Ague and Fever, or Billious Fever, would do well to keep a constant supply of this invaluable remedy always on band.

The proprietor bas in his possession a large number of certificates and other traditionals from persons who have used this medicine, as well as from Physicians. Druggists, Apothecaries, and other dealers in madicine, attesting its superior virtues as a curative in Chills and Fever, or Ague and Fever; and be evall obtain many thousands more, or enough to fill a large volume, but does not deem it necessary, as it is already extensively and favorably known to the public generally.

Such as Indigestion, Addity of the Stomach, Colleky Palus, Heartburn, Loss of Appetite, Despondency, Cos-tiveness, Bilad and Bleeding Fries. In all Nervous, Rheumatic, and Neuralgic Affections, it has in numerous instances proved highly beneficial, and in others effected a deritied cure.

Instances proved highly beneficial, and in others effected a dectided cure.

This is a purely vegetable compound, prepared on scrictly scientific principies after the manner of the celebrated floiland Professor. Berhave. Because of its great success in most of the European States, its introduction into the United States was intended more especially for those of our fatherisud scattered here and there over the face of this mighty country. Meeting with great success among them, I now offer it to the American public, knowing that its truly wonderful mediciual virtues must be acknowledged.

It is particularly recommended to those persons whose constitutions may have been impaired by the continuous use of ardent spirits, or other forms of dissipation. Generally instantaneous in effect, it finds its way directly to the seat of life, thrilling and quickening every nerve, raising up the drooping spirit, and, in fact, lufusing new health and vigor in the system.

NOTICE—Winever expects to find this a beyerage will be disappointed; but to the sick, weak and low spirited, it will prove a greatful aromatic cordial, possessed of singular remedial properties.

THE RIVER was at a stand at the head of the falls, yesterday, with acant two feet water in the canal by the mark. This would enable boats drawing about three feet to work though without lighting. The weather has turned quite cool, and was cloudy during the day, hat clear last night, with erery indication of frost.

In regard to the condition of the river above Cincinnati, we copy the following from the Ga

At Glass House, as we learn from Mr. James McDonald, of the Marmora, there are only eight luches water. The Alps is lying straight across the channel, with a flat-bost centaining a locomotiva and a new ferry boat.—Steamboatmen, at Pittsburgh, have put away all their former pride, and have all taken hold of the ccrubling and paint brush, and are overhauling their several steamers. The dull times has compelled them to go to work, and employ no more help than is actually necessary. The Fairy Queen, from Big Saudy, yesterday, reports 24 luches water scant on Greenup shoals, and the Urgains Home aground at Augusta bar. The Home's passengers were transferred to the Queen. The Home has slace got off, and arrived last evening.

Mons Trougle Among Southern Packets.—A

MORE TROUBLE AMONG SOUTHERN PACKETS .- A number of the merchants and shippers of Vicks-burg, have been quarrelling among themselves of late, short rates of freight, particularly cotton going South, also in regard to receiving goods on wharf boats, etc. But lately other parties have taken an interest in their affairs as well as trade, and the papers down there pitch into them "hot footed." Among others the New Orleans & Memphis packet line, one of the best extant, bid for the trade and travel, whereupon the Vicksburg Whlg, of the 10th., comes down upon them in this

wige:

Imposition On Travelers.—We learn from the Memphis Ledger that the Memphis and Charleston railroad and the Memphis and New Orleans packet company have entered into a combination, whereby passengers who purchass through tickets in New York, for Vicksburg and New Orleans, are c mpelled to take the boats of the New Orleans and Memphis packet company, and that through tickets will not be sold by way of he Memphis and Vicksburg packets. But this is not all. We were told a few days ago by a gentleman in this city that the New Orleans and Memphis packet company had given motice to our New Or cans boats that if they dared to bring up freight to be reshipped via our Memphis packets, they would come down here and take cotton for four bits a bale. This is the policy adopted by this manumoth humbug line of mail boats, yelept the Memphis and New Orleans packet company, te which they expect to free freicht and passengers to taket eir boats. It six kes us that a fair compatition would be more hon orable, but there is no accounting for tasie.

We believe tha Memphis and New Orleans packet company will be folied in their object. A through ticket is now being prepared which recognizes the Vicksburg packets, and we have no doubt this prompt and reliable line will be able to defy the humbug concern which has to resort to combinations to secure custum.

Accident to the feet of the confidence of the owns.

ACCIDENT TO THE BOWLING GREEN .- The Owens boro and Evansville packet, Bowling Green, Wedneeday night, struck a snag or log at Strong's landing, a few miles above Salt river, just as she was backing out from the landing. One of the planks at the stern was knocked off, causing her to leak so hadly that she sunk in four feet water, damaging a large amount of freight in the hold, chefty merchandiss.

The Bowling Green left Portland late Wednes day afternoon, having a great deal of freight on board, the most of which was dry goods, pnrchased by passengers, for the various river landings this side of Owensboro.

The R. M. Patton No. 2 came up soon after the

accident, and took of most of her freight and brought it back to this city. The crew of the Bowling Green were at work stopping the leak, and no doubt they will have her all affoat by today. She will have to be taken in the dock to

We thank the attentive officers of the Potomac, from Cairo, for a memorandum. She had a number of passengers from the Woodford from New Orleans, and reports but very little freight at Cairo for reshipment South.

The Potomac on her trip butted against a snag or something harder, which broke a few of her rihs, and she has to lie by a day or two to repair. STEAMBOAT BURNED .- By referring to the dispatches in another part of the paper, it will be seen that the W. H. Denny was destroyed by fire yesterday on the Upper Mississippi, near Quincy. She belonged to the Northern line of packets between St. Louis and Saint Paul. BOAT BUILDING AT CINCINNATI. - We learn by the

yearly report in the Price Current, that hoat h ng in that city in the past year, has fallen off ful y one-half. The total number of boats built there this season was 14 with a tonage of 5,334 tons, against 34 hoats the previous year, and an aggregate tonage of 10,600 tons. ELLA-Mail Packet for Cairo.—The bright, fleet, and light packet Ella, in charge of our hrash young friend Dashiell, who though a young man,

is an old boatman, is the regular mail and passen-ger packet for Cairo and Memphis this evening. She starts at 5 o'clock from Portland, and will go through without delay. Capt. J. C. McGill, of the R. H. Winslow, to arrived here yesterday from Madison, on the

Rochester, was unlucky enough to loose a valise well filled with wearing apparel. It was lost from a back on the way to the National Hotel. The finder will he suitably rewarded by leaving it at this office. F. D. Hale, clerk of the Arkansas Traveler

has our thanks for a memorandum and manifest. She brought the freight of the Woodford from The Arkansas Travler, in charge of Capt. King, returns to Cairo this evening.

The Woodford has been temporarily laid up

at Cairo to refit and repaint, and will soon be on the track again. Her officers reached port yes-terday, and to Mr. McLaughin, the courteous clerk we are indehted for a file of papers. The R. M. Patton No. 2, in command o

Capt. Bernard, takes her departure to-day at 10 o'clock, for Owensboro. She is a magnificent, light draft packet, and will jump the bars with the swiftness of Mazeppa.

The John Bell, now in dock for the pur

pose of having her stern raised, will be out to-day, probably, and he in running trim in a day or It is probable that the administration Capt. Vausickle's estate will order her sold. The association or combination among the issouri river boatmen continues in force, yet we learn of boats leaving the line, and acting independently. This number includes the Hesperion, Twilight, Skylark and Alonzo Child.

We announce the arrival of several boats from the mouth of the Ohio, all of which report navigation restricted, with but thirty inches water at Scuffletown, and a fleet of boats aground. The Western rivers continue to recede dowly, but business is tolerably brisk, as all are preparing for an early freeze up and suspensio

We learn from our St. Louis exchanges that hopes are yet entertained of raising the J. H. Oglesby, recently sunk in the Missonri river. She had sunk to her boiler deck. The Gen. Pike is the mail boat for Cincinnati and the east to-day at 11 o'clock, in charge of Capt. Hildreth, with A. D. Armstrong in the of-

The Greenwood packet Roebuck, brought out of the Yazoo, last Wednesday, three hundred and seventeen bales of new cottou. There were about one thousand bales of cotton (all new with the exception of a few hales), on the landing at Vicksburg Wednesday evening,

The swift propeller Mary Cook is due from Cairo and Mound City this morning, and is duly advertised to return this evening.

The Endeavor, Capt. Markel, is at the city wharf loading for Memphis. She starts this evening, and will probably take the mail. James K. Moody, of this city, formerly clerk of the J. H. Dickey, has changed to the

The V. K. Stevenson, in fine trim, takes her departure to all landings along the Tennessee river this evening.
